UV-resistant		Resistant
Package	[pcs]	5

Advantages:

- Fast and easy installation
- Double protection against corrosion
- For beaver-tail roof tiles

Eurovent **FIX TUBE BIBER**

Application:

The adapter for snow-stopping pipe Eurovent FIX TUBE BIBER is designed for use as an adapter for snow-stopping pipe. Ensures fast and easy installation of the pipe on sloping roofs covered with ceramic tiles, also called - beaver-tail roof tiles. Its installation is fast and easy - fixed under the roof tile, directly to the roof construction.

Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Included information, advices and guidance is given based on our best knowledge, researches, experience and in good faith. We are not be held responsible for the consequences of improper or incorrect use of our products. Each user of the product shall ensure, in every possible way, including checking the end-product in given conditions, that the provided product is suitable to reach objectives he pursues.
