Eurovent **SUPPORT UNI**

Application:

The adapter Eurovent UNI is designed for use as a roof communication element for efficient installation of the Eurovent[®] PLATFORM chimney platform or the Eurovent[®] STEP chimney step on flat roofing coverings. When installing the chimney platform, the universal grip Eurovent[®] GRIP must be also used.

Fitting:

Mounted directly to the roof structure with an additional counter batten using screws or directly on the roofing.

Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.
