

## TECHNICAL DATA SHEET

### Eurovent LINK

The Eurovent roof platform link is an element designed for use as a connector of two platforms into a row. It is manufactured from galvanized steel sheet. Offered in a set with mounting screws, in a powder-coated version.

PARAMETER	UNIT	VALUE
Material		Steel grade S235JR
Dimensions	[mm]	180 x 25
Steel sheet thickness	[mm]	6
Construction requirements	[norm]	PN - EN 516:2007
Resistance to static load	[norm]	PN - EN 516:2007
Coating thickness	[µm]	≥ 60
Corrosion protection		Hot-dip galvanized
Zinc coating thickness	[µm]	≥ 55
Colour	[RAL]	Galvanized steel; wallred 8004; brown 8017; brown 8019; anthracite 7016; graphit 7024; black 9005; cherry 3004; chestnut 3009; cherry 3011
Package	[pcs]	10

#### Advantages:

- Double protection against corrosion
  - Fast and easy installation
  - Strength and durability

## Eurovent LINK

### Application:

The Eurovent roof platform link is used as an element of roof communication enabling quick and efficient connecting of roof platforms into a row. Two elements should be applied for joining neighbouring platforms by screwing them together with the included mounting screws.

### Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

*Included information, advices and guidance is given based on our best knowledge, researches, experience and in good faith. We are not be held responsible for the consequences of improper or incorrect use of our products. Each user of the product shall ensure, in every possible way, including checking the end-product in given conditions, that the provided product is suitable to reach objectives he pursues.*
