

Eurovent COMB X

Eaves comb made from high quality polypropylene in injection molding technology. It can be used as a ventilation element for the eaves area in pitched roofs. Thanks to special components used in production it is resistant to weather conditions. It is suitable for almost all roof coverings.

PARAMETER	UNIT	VALUE
Material		high quality, UV stabilized polypropylene
Size	[mm x mb]	60; 80; 100 x 1
Width base	[mm]	28
UV resistance		resistant
Weatherproof		resistant
Aging resistance		resistant
Color	[RAL]	red wall 8004, brown 8019, black 9005
Box	[pcs]	60 mm – 300 pcs; other – 50 pcs
Pallet	[pcs]	60 mm – 6000 pcs; 80 mm – 4000 pcs; 100 mm – 2100 pcs

Advantages:

- Proper ventilation
- UV resistance
- Protection against birds

Eurovent **COMB X**

Application:

The comb is designed for protecting the eaves against birds, rodents and large insects. The protected area is safe from leaves and other trash, providing good ventilation and air circulation in the roofing area. The use of the product allows resignation from the eaves batten, which substantially facilitates installation of gutter hooks. Suitable for application with nearly all types of roof coverings.

Storage / transport:

The product should be stored in a dry place, under cover, free from moisture and direct UV radiation in original undamaged and closed package. Please protect from mechanical damage during storing. The product should be transported in covered means of transport. It should be prepared for transport in a manner that protects it from damage and destruction. During transport safety regulations must be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce it's technical parameters or permanently damage it.

The product is under warranty, providing that the guidelines contained in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Included information, advices and guidance is given based on our best knowledge, researches, experience and in good faith. We are not be held responsible for the consequences of improper or incorrect use of our products. Each user of the product shall ensure, in every possible way, including checking the end-product in given conditions, that the provided product is suitable to reach objectives he pursues.
