

Eurovent **CLIP TUBE**

The clip for snow-stopping pipe – Eurovent CLIP TUBE. Manufactured from plastic and designed for use as connector for a line of pipes.

PARAMETER	UNIT	VALUE
Material		Plastic
Colour	[RAL]	Black 9005
UV resistance		resistance
High temperature resistance		resistance
Low temperature resistance		resistance
Package	[pcs]	10

Advantages:

- Fast and easy installation
- Strength and durability • Double protection against corrosion

Eurovent CLIP TUBE

Application:

CLIP TUBE is used as an element enabling efficient connection of two snow-stopping pipes into a line.

Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Included information, advices and guidance is given based on our best knowledge, researches, experience and in good faith. We are not be held responsible for the consequences of improper or incorrect use of our products. Each user of the product shall ensure, in every possible way, including checking the end-product in given conditions, that the provided product is suitable to reach objectives he pursues.
