

Eurovent GEO LINE

The Eurovent GEO LINE profile is designed for finishing works as well as for installation of foundation foils. The shape of the profile ensures that the edge of foundation foil adheres to the insulated surface. Manufactured from a special plastic.

PARAMETER	UNIT	VALUE	NORM
Straightness	[mm/m]	<0,2	
Density	[g/cm ³]	Medium 1,5	PN-EN 1183-1 :2013 method A
Softening point	[by Vicata °C]	Medium 76	PN-EN ISO 306:2014
Charpy impact strength	[KJ/m ²]	Medium 6,0	PN-EN ISO 179-1 :2010
Color change (difference) after aging		Medium 0,49	PN-ISO 7724-2:2013, 7724-3:2013
Fire classification		B	
Colour		Black	
Box	[pcs]	25	
Pallet	[boxes]	5000	

Advantages:

- Fast and easy installation
- Suitable for foundation foil
- Corrosion resistant

Eurovent **GEO LINE**

Application:

The Eurovent GEO LINE profile is used for mounting foundation foils. The product is applied on the upper edge of the sheet and allows to mount it tightly to the insulated surface. Thanks to a perfectly matched profile, a correctly installed skirting board creates a tight connection between the foundation foil and the surface.

Storage / transport:

The product should be stored in a dry place, under cover, free from moisture and UV radiation in original undamaged and closed package. The Product should be transported in covered means of transport. They should be prepared for transport in a manner that protects them from damage and destruction. During transport safety regulations must be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of foil or permanently damage it.

The product is under warranty, providing that the guidelines contained in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Contained information, advice and guidance is given based on our knowledge, researches, experiments and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
