

## TECHNICAL DATA SHEET

### Eurovent **CANTILEVER G**

The Eurovent CANTILEVER G ridge batten bracket, a mounting element for ridge batten in ventilated sloping roofs, type "nail". The bracket is made entirely of galvanized steel and of a nail - of high quality steel. Therefore, it is characterized by increased durability and resistance to cracking.

PARAMETER	UNIT	VALUE
Material	[PN-EN 10111 :2009]	Steel S235JR
Coating	[Norm PN-EN ISO 2081 :2011]	Electrolytic tin coating with a thickness of not less than 8 μ
Characteristic load capacity	[kN]	11,1
Width	[mm]	40; 50
Length	[mm]	180; 210; 230; 260; 310;
Box	[pcs]	100
Pallet	[pcs]	3 200

#### Advantages:

- Fast, easy and precise installation
  - Resistance to ageing
- Efficient installation of the ridge batten

## Eurovent CANTILEVER G

### Application:

The Eurovent CANTILEVER G ridge batten bracket is used as a mounting element for ridge battens. It ensures proper positioning of the batten and enables fast and reliable installation of ridge tiles to the ridge batten. Several different sizes of the bracket makes it possible to use it for different sizes of ridge battens.

### Installation:

Eurovent® CANTILEVER G is attached to the wooden roof structure by screwing in the mandrel bracket into the roof structure.

### Storage / transport:

The product should be stored in a dry place, under cover, free from moisture and UV radiation in original undamaged and closed package. Rolls should be transported in covered means of transport. They should be prepared for transport in a manner that protects them from damage and destruction. During transport safety regulations must be observed. The product should be protected from chemical agents, in particular solvent based substances, as they can reduce technical parameters of foil or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

*Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.*
