

Eurovent FIX TUBE FLAT

The adapter for snow-stopping pipe Eurovent FIX TUBE FLAT is manufactured from galvanized steel sheet. Enables the assembly of two snow-stopping pipes on flat metal coverings in the form of profiled panels with connections for the so-called standing-seam and mounted on the „CLICK“ fastening system. Available in several colour versions painted with powder paint according to RAL chart, as well as in single pipe assembly version (on a request). Suitable for application on roof slopes ranging from 15 to 60 degrees.

PARAMETER	UNIT	VALUE
Material		Stal (gat. S235JR)
Fin sheet thickness	[mm]	3
Bracket height (Fins)	[mm]	About 180
Hole diameter	[mm]	About Ø34
Hole spacing	[mm]	About 47
Colour	[RAL]	Galvanized steel; wallred 8004; brown 8017; brown 8019; anthracite 7016; graphit 7024; black 9005; cherry 3004; chestnut 3009; cherry 3011
Corrosion protection		Hot-dip galvanized
UV-resistant		Resistant
Package	[pcs]	10

Advantages:

- Double protection against corrosion
 - Fast and easy installation
- For flat panel sheets with a standing-seam

Eurovent **FIX TUBE FLAT**

Application:

The adapter for snow-stopping pipe Eurovent FIX TUBE FLAT is designed for use as an adapter for snow-stopping pipe. It is used as a protection element enabling efficient fixing of the snow-stopping pipe on sloping roofs made from flat metal sheet panels finished with a standing-seam. Its installation is quick and easy - it is fixed directly to the roof construction with the use of screws, which are included in the set.

Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Included information, advices and guidance is given based on our best knowledge, researches, experience and in good faith. We are not be held responsible for the consequences of improper or incorrect use of our products. Each user of the product shall ensure, in every possible way, including checking the end-product in given conditions, that the provided product is suitable to reach objectives he pursues.
