

TECHNICAL DATA SHEET

Eurovent **BITUVENT**

Ridge vent designed as a ventilation and protective element for ridges and hips on pitched roofs with slopes up to 30°, covered with bituminous shingles. Made of high-quality UV-resistant plastic, it ensures effective ventilation in the ridge area, preventing moisture buildup and enhancing the roof's durability.

PARAMETER	UNIT	VALUE
Material		Polymer
Size	[mm x mm]	290 x 1000
UV Resistance		Resistant
Softening temperature according to PN-EN ISO 306:2006/B50	[°C]	≥ 75
Tensile strength according to PN-EN ISO 8256:2006	[kJ/m²]	≥ 600
Density according to ISO 1183/C	[g/cm³]	0,905
Index MFR according to ISO 1133	[g/10min]	15
Ventilation height	[mm]	30 (+/- 0,8)
Color	[RAL]	Black 9005
Box	[pcs]	10
Pallet	[pcs]	100

TECHNICAL DATA SHEET

Eurovent **BITUVENT**

Application: Designed as a ventilation and protective element for ridges and hips on pitched roofs with slopes of up to 30°, covered with bituminous shingles. It protects the roof surface against snow, rain, moisture, dust and debris blown in from the ridge area and ensures proper air circulation within the roof structure.

Safety: The product is not intended for consumption. Avoid contact with eyes. In case of skin irritation, consult a doctor..

Storage / transport: Store in room temperature, in dry, covered spaces, free from moisture and direct UV radiation. It is recommended to store the product in its original, closed packaging, protected from mechanical damage. Transport only in covered vehicles, ensuring protection against physical damage. Avoid exposure to chemical agents, especially solvent-based substances, as they may degrade technical parameters or cause permanent damage.

The product is covered by warranty only if all guidelines in the technical data sheet are strictly followed. The manufacturer reserves the right to reject warranty claims if the product is used contrary to the stated instructions

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
