Package	[pcs]	10

Advantages:

- Double protection against corrosion
 - Fast and easy installation
- For metal roof tiles GERMANIA SIMETRIC 350/30 mm

* to order

Eurovent **SUPPORT METAL HYYGGE**

Application:

The Eurovent SUPPORT METAL HYYGGE adapter is designed for use as a roof communication element for efficient installation of the Eurovent® PLATFORM chimney platform or the Eurovent® STEP chimney step on the roofing made of profiled metal roofing tiles with modules RUUKKI HYYGGE. When installing the chimney platform, the universal grip Eurovent® GRIP must be also used.

Fitting:

The step is fixed to the roof covering i.e. metal roof as well as to the batten by means of screws.

Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Included information, advices and guidance is given based on our best knowledge, researches, experience and in good faith. We are not be held responsible for the consequences of improper or incorrect use of our products. Each user of the product shall ensure, in every possible way, including checking the end-product in given conditions, that the provided product is suitable to reach objectives he pursues.
