

TECHNICAL DATA SHEET

Eurovent TUBE

The Eurovent TUBE, a snow-stopping pipe is manufactured from galvanized steel. Designed for use as protection element against movements of mass quantities of snow. Prevents gutter detachment. Available in several colour versions painted with powder paint according to RAL chart.

PARAMETER	UNIT	VALUE
Material		steel grade S235JR
Length	[m]	2
Hole diameter	[mm]	32
Colour	[RAL]	Galvanized steel; wallred 8004; brown 8017; brown 8019; anthracite 7016; anthracite 7024*; black 9005; chestnut 3009*; green 6020*; cherry: 3004*
Corrosion protection		Hot-dip galvanized
UV-resistant		Resistant
Package	[pcs]	5
Pallet	[pcs]	350

Advantages:

- Double protection against corrosion
- Fast and easy installation
- For various roof coverings

Eurovent TUBE

Application:

The Eurovent TUBE, a snow-stopping pipe is designed for use as a snow protection element for sloping roofs. Thanks to the wide range of adapters, the product can be adapted to almost any type of roof covering, including standing-seam metal roofing. Installed in connection with the adapter on roof slopes with an angle ranging from 15° to 60°.

Storage / transport:

The product should be stored under roof in dry, damp-free rooms, protected from direct UV radiation. Product can be deformed, disfigured or suffer from damages of galvanized/paint coating if put under high pressure. Therefore it is unadvised to stack the product with other heavy products (both in storage and in transport). It is recommended to transport the product with use of covered means of transport, in manner that protects them from damage. During the transport safety regulations have to be observed. The product should be protected from chemical agents, in particular solvent-based substances, as they can reduce technical parameters of the product or permanently damage it.

The product is under warranty, providing that the guidelines included in technical data sheet are being obeyed. We reserve the right to refuse a complaint recognition in case of not following these guidelines.

Included information, advices and guidance is given based on our best knowledge, researches, experience and in good faith. We are not be held responsible for the consequences of improper or incorrect use of our products. Each user of the product shall ensure, in every possible way, including checking the end-product in given conditions, that the provided product is suitable to reach objectives he pursues.
