

TECHNICAL DATA SHEET

Eurovent AIR FLEX S

The Eurovent AIR FLEX S ridge ventilator, used as a ventilation and protection element for ridge. Suitable for horizontal and diagonal ridges for nearly all types of roof coverings. It is equipped with special ventilation openings in the upper part, as well as with synthetic bristles that form the so-called „brush“.

PARAMETER	UNIT	VALUE
Material		polymer
Size	[mm x mm]	75 x 1000
UV resistant		resistant
Length hair brush	[mm]	60-100
Color	[RAL]	brick8004, brown 8019, black 9005, charcoal 7021, auburn 8015, cherry 3013
Box	[pcs]	20
Pallet	[rolls]	200

Advantages:

- UV resistant • Flexibility
- Effective ventilation

** UV stabilization even up to 4 months according to artificial ageing performed in the laboratory related to the conditions of average sun exposure for the climate in Central Europe.*

Eurovent AIR FLEX S

Application:

The Eurovent AIR FLEX S ridge ventilator is designed for use as ventilating and sealing element for roof ridges and hips. It protects the roof covering against penetration of snow, rain, moisture and dust while ensuring proper air circulation within roof covering. It is suitable for almost all types of roof coverings - ceramic tiles, concrete tiles, metal roofing tiles, trapezoidal sheets, profiled aluminium sheets, etc.

Storage / transport:

The product should be stored in a dry place, under cover, free from moisture and UV radiation in original undamaged and closed package. Rolls should be transported in covered means of transport. They should be prepared for transport in a manner that protects them from damage and destruction. During transport safety regulations must be observed. The product should be protected from chemical agents, in particular solventbased substances, as they can reduce technical parameters of foil or permanently damage it.

Contained information, advice and guidance is given based on our knowledge, researches, experience and in good faith. We are not responsible for the consequences of improper or incorrect use of our products. Each user of this material will ensure in every possible way, including an examination of the final product in the relevant conditions, the suitability of supplied materials to achieve the objectives pursued by him.
